SIGNATURE					
I hereby certify that I have read and examined this application and know the same to be true and correct. All provisions of laws and ordinances governing this type of work will be complied with whether specified herein or not. The site plan, which has been submitted, is true and accurate and the structure will be located within the allowable setbacks. The granting of a permit does not presume to give authority to violate or cancel the provisions of any other State or Local Law regulating construction or the performance of construction. This permit becomes null and void if work or construction authorized is not commenced within 180 days, or if construction or work is suspended or abandoned for a period of 180 days at any time after work is commenced. Final Foundation Survey required prior to framing of house. MINIMUM PERMIT FEE IS \$50.00 FOR RESIDENTIAL & \$100.00 FOR COMMERCIAL

As can be seen in Table 404.1.1b of the code, the minimum required foundation wall thickness for those applications which do not require design is 8 inches (203 mm). Footnote 2 permits a reduction in wall thickness to 6 inches (152 mm) as long as the reinforcing steel closer to the inside face of the wall, the effective depth of the wall element which resists bending is increased; therefore, the flexural capacity of the wall is increased. Placement of the reinforcement to achieve this reduction in wall thickness is shown in Figure 404.1.1c.

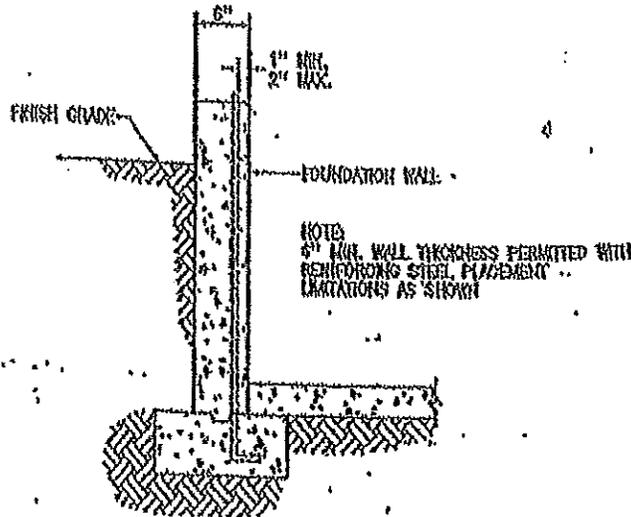

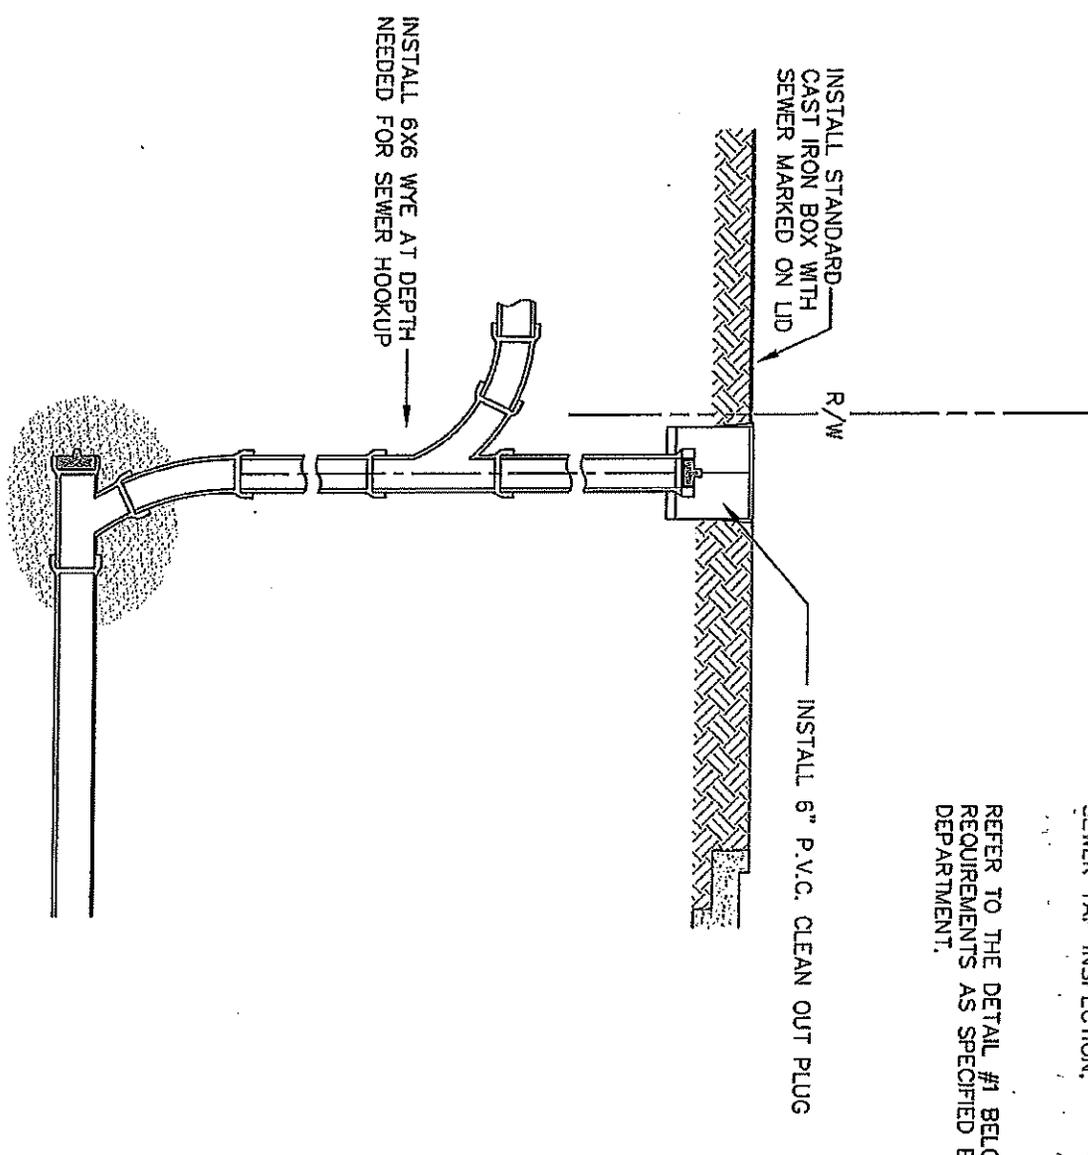

Figure 404.1.1c

PLACEMENT OF REINFORCEMENT IN 6 INCH FOUNDATION WALLS

For SI: 1 INCH = 25.4 MM

404.1.3 Backfill. A minimum distance above adjacent grade to which the foundation must be extended is necessary to provide termite protection and minimize the chance of decay resulting from moisture migrating to the wood framing. A reduced foundation extension is permitted when veneer is used.

SEWER TAPS REQUIRE A PLUMBING APPLICATION AND SHOULD BE INSTALLED BY A LICENSED PLUMBER OR LICENSED UTILITY CONTRACTOR. PLEASE CALL FOR A SEWER TAP INSPECTION.

REFER TO THE DETAIL #1 BELOW. PLEASE PAY CLOSE ATTENTION TO THE REQUIREMENTS AS SPECIFIED BY THE CITY OF CANTON BUILDING INSPECTIONS DEPARTMENT.

Re: Warming Fire
Date: May 5, 2005

As per Georgia Department of Natural Resources Environmental Protection Division Air Protection Branch, Chapter 391-3-1:

Open burning is only allowed at construction sites if the following items are met:

1. Prevailing winds at the time of the burning are away from the major portion of the area's population.
2. The location of the burning is at least 1,000 feet from any occupied structure, or lesser distance if approved by the Fire Department.
3. Heavy oils, asphalt materials, items containing natural or synthetic rubber or any materials other than plant growth are not burned.
4. Warming fires shall be in a non-combustible container and meet the above requirements.

If you have any questions, please call the Canton Fire Department at 770-479-7287.

To All Contractors

To Whom It May Concern:

In accordance with City of Canton policy, third party inspections are permitted only with prior approval by the City of Canton Building Department. Third party inspections will not be accepted without prior approval. When a third party inspector is utilized, policy requires a copy of the field inspection report should be left in the permit box.

Sincerely,

Mark Crosby, CBO MCP
City of Canton

Temporary Construction Power Tampering/Modification Form

Field modification and/or tampering with an approved temporary electrical service that results in the exposure of live parts is a code violation and shall be dealt with accordingly.

If City of Canton personnel discover a temporary construction power service that has been modified or tampered with in any way and is being utilized in an unsafe manner, immediate disconnection will result.

City of Canton
Soil Erosion and Sedimentation Control Agreement

No inspections will be made if site is not in compliance. Notice of non-compliance will be issued followed by court citation if corrections are not made within three (3) working days. Reinspections fees will be assessed for each follow up inspection and doubled until permit revoked.

General Notes

1. The construction pad shall be maintained in a condition which will prevent tracking or flow of mud on public streets.
2. Silt fences and hay bale barriers shall be cleaned or replaced and maintained in functional condition until permanent erosion control measures are established.
3. Silt fence fabric shall be comprised of GA Department of Transportation qualified products listed 36, for silt fence fabric.
4. All grassing shall be in accordance with Chapter 6, Section III "Vegetative Practices" of the Manual for Erosion and Sediment Control in Georgia.
5. All other work shall be performed in accordance with the same manual.
6. The contractor shall furnish the City of Canton with a schedule of anticipated starting and completion dates.
7. Erosion control devices will be in place before site disturbance and will be periodically inspected and repaired or restored as needed to function properly until permanent measures are established and project is completed, i.e.: construction exists and silt fences shall be retopped or cleaned as silt reduces their effectiveness.
8. Any additional construction other than shown on the original plan will require separate and additional soil erosion and sediment control measures and approval.
9. Temporary vegetation (grass seed & Straw) and/or heavy mulch will be used to stabilize all Disturbed areas except the footprint of structure and construction entrance. In no case shall a site be left bare for more than fourteen (14) days of clearing.
10. All stockpiles shall be covered with plastic or temporary vegetation until such stockpiles are replaced or removed.
11. All disturbed areas will be permanently landscaped and grassed as quickly as possible.
12. All work shall be performed in accordance with the specifications of the Manual for Erosion and Sediment: control in Georgia.
13. Additional measures may be required to control erosion as determined necessary by the City Inspector.

Person responsible for erosion control measures is;

All information must be completed to have the inspection scheduled.
Requests received **before 3:00** will be scheduled for the next business day.
Do Not call the inspection line to check on status or to cancel.
Cancellations must be received prior to 9:00 am.
General information number is 770-704-1553.
You may check the status of your inspection at www.canton-georgia.com
(click ETrak-it) and search by permit number.

To check permit status/inspection results online:

1.) Go to www.canton-georgia.com

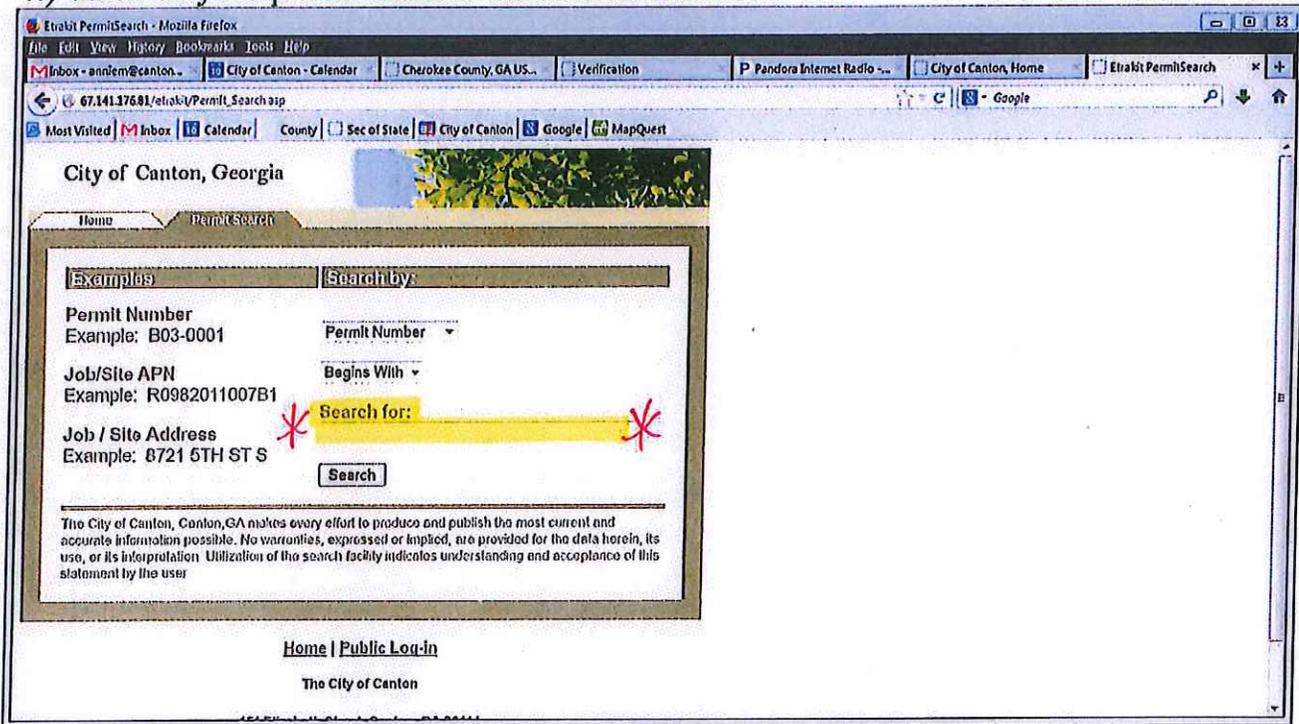

2.) Select **Permit Status** (under *Frequently Used Online Services*)

The screenshot shows the City of Canton website homepage. The browser address bar displays www.canton-georgia.com. The page features a navigation menu with links for 'Community Development', 'Engineering', 'Finance', 'Fire Department', and 'Municipal Court'. A 'Frequently Used Online Services' section is highlighted with a red 'X' over the 'Permit Status' link. Other links in this section include 'Citation Payments', 'Search Agendas & Minutes', 'Mapping Application', 'Crime Reports', 'Community Calendar', 'Online Bill Pay', 'See Click Fix', 'Stormwater Program', 'Water Outages & Advisories', and 'Road Closures & Construction'. The 'Permit Status' link is also highlighted with a red 'X'.

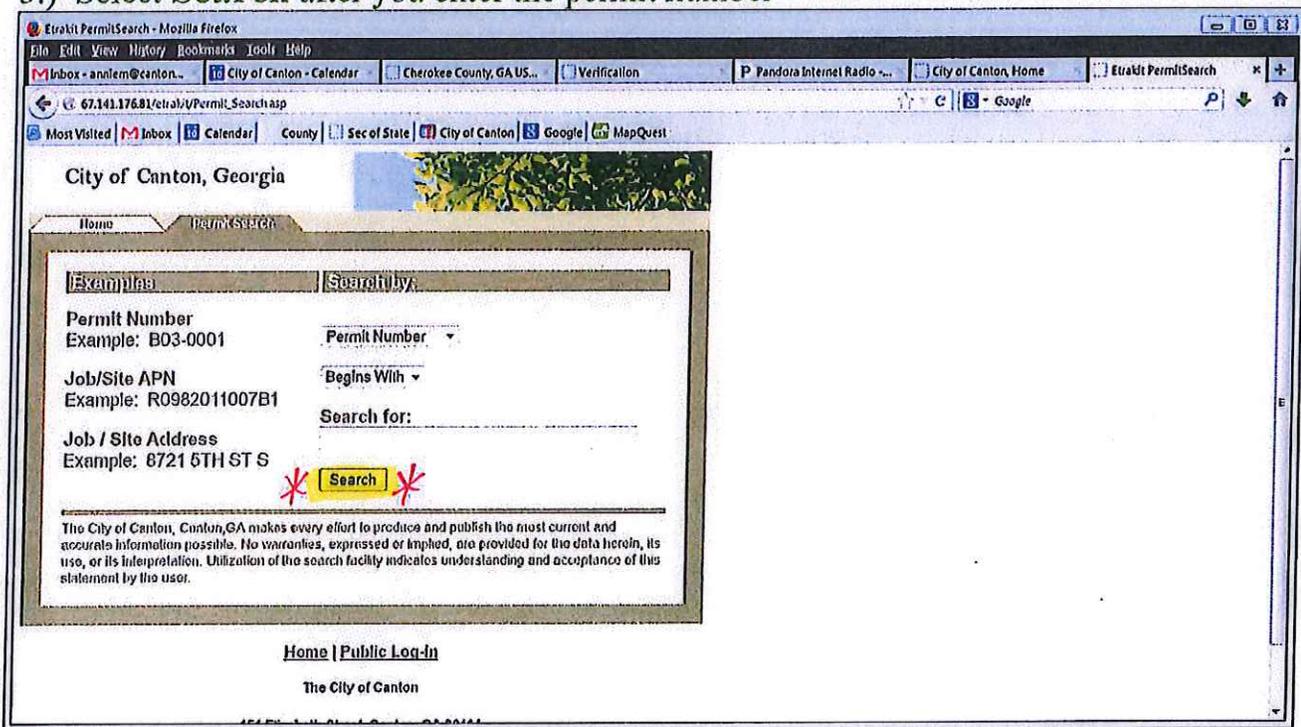

3.) Select **Permit Search**

The screenshot shows the Etrakt City Home Page. The browser address bar displays 67.141.176.81/etrakt/index.asp. The page features a navigation menu with links for 'Home', 'Permit Search', 'Project Search', 'License Search', and 'Contractor Search'. The 'Permit Search' button is highlighted with a red 'X'. The page content includes a welcome message: 'Welcome to the City of Canton, Canton, GA Online Permitting Web Site'. Below the message, it states: 'This site provides access to the permit records of City of Canton, Canton, GA as well as general information regarding our office. Start by making a selection from below:'. The 'Permit Search' button is highlighted with a red 'X'.

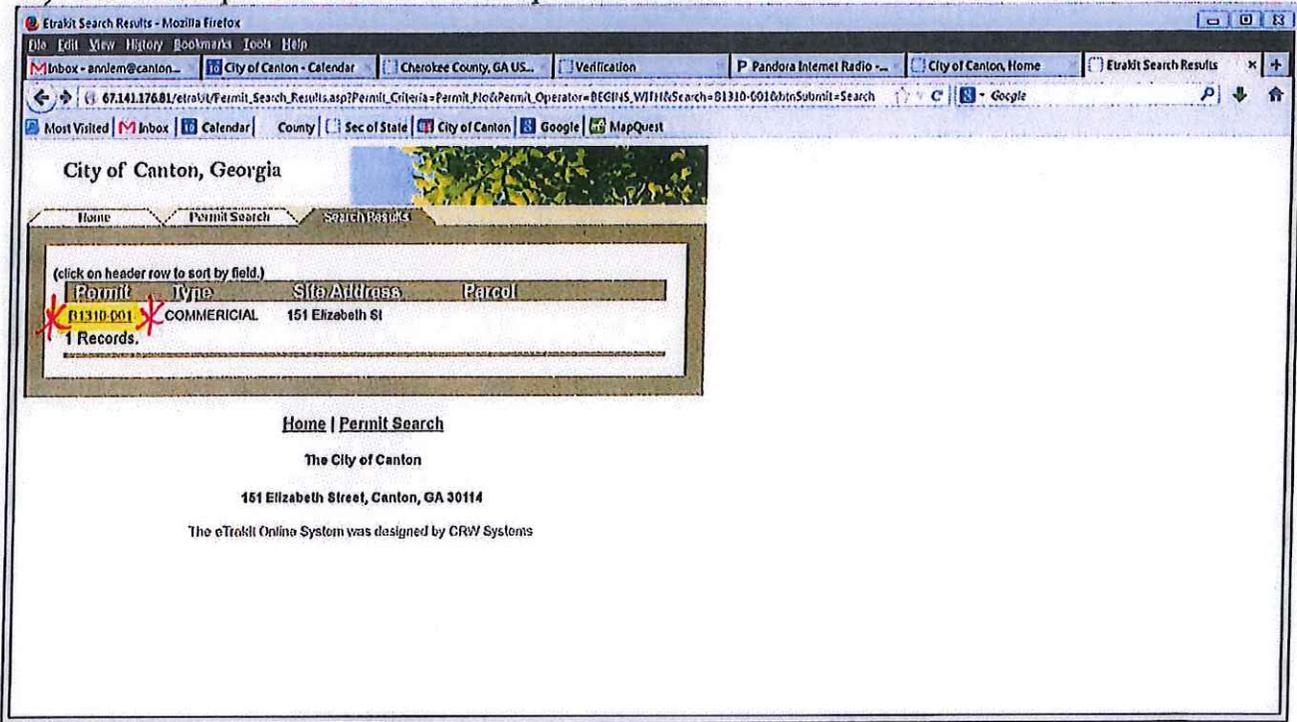

4.) Enter in your permit number under **Search For:**

5.) Select **Search** after you enter the permit number

6.) Select the permit number for all permit details

Please note that if you want to check on an electrical permit/inspection, you must enter the electrical permit number. If you want to check on a plumbing permit/inspection, you must enter the plumbing permit number.

If you do not know the permit number, change the parameters of the search in *step 4* (above) to search by site address. See below:
